

# Software Applications Engines of Business Success

## Well-tuned Applications Accelerate Business Productivity

Applications are the engines of your company. Ongoing maintenance ensures they are consistently available and running at peak performance. Productivity issues drain the value provided to your customers.

### Canopy<sup>SM</sup> Managed Application Services

- Document and test applications
- Tune applications for your company's unique requirements
- Continuous updates including full-version upgrades
- Monitor storage requirements, processor power and memory
- Replacement solutions for underperforming applications
- Cloud-based and hybrid application support
